# The main Goal

## A more integrated labour market across Femern Belt

- A general acknowledge of VET-education
- Create new education Across Femern Belt
- Establish a common “Jobbörs”

# A general acknowledge of VET-education

- No general acknowledge
- 4 (5) education was compared
  - Bricklayer, Smith, Chef, Salesman, Electrician
- We had compared the overall objective of each education
  - We - that was teachers, representatives from organisation and firms
  - Only small difference in the main goal
  - The Danish education a little longer than the German
  - The structure was different

# Create new education Across Femern Belt

- The system and the structure was not prepared
  - The apprentice is afraid of the normally exam and now they should take two
  - How to prepare the student best
  - New project that have the goal to create education across border

# Establish a common “Jobbörs”

- The willing was there, but the labour market was too small to make a common „Jobbörs“
- Establish a closer cooperation – learn of each system
- We agreed of contact persons and have to communicate

## The results

- A good network where we help each other
- Wish off cooperation in daily problem and in new project
- Understanding of the different structural in system and that we organise it different
- A knowledge of new possibilities that maybe would change our own system

# Concrete results

- Declaration of intention between the partners
- Declaration between the two ministry of education
- Intention on the possibilities
